The World's Rubber Progress Every Month

THE INDIA RUBBER WORLD, edited by Henry C. Pearson, F.R.G.S., is the pioneer rubber paper. It is also the largest and most widely read. Its one hundred and eighty pages monthly record all of the important features of the rapidly growing industry that it represents.

It contains every month a half score of practical articles on topics of vital interest written by the world's foremost rubber technologists or by members of our staff of experts.
